

SAFETY, CONGESTION AND COMMUNITY IMPROVEMENTS

2020 to 2022

SBX is Phase 1 under the Spaghetti Bowl Project umbrella. Because the entire Reno Spaghetti Bowl project is so large-scale, it is being divided into phases. SBX will address one of the most dangerous portions of the current Spaghetti Bowl: the eastbound I-80 to southbound I-580/US 395 ramp and southbound I-580/US 395 from the Spaghetti Bowl down to Mill Street.

IMPROVEMENT AREAS

- 1 Add a lane to eastbound exit from I-80 to I-580/US 395 southbound.
- 2 Add lanes and shoulders on I-580 southbound from I-80 to Vassar Street.
- 3 Restripe Wells Avenue to I-80 eastbound onramp increasing lanes to I-580 southbound.
- 4 Separate ramps for access to and from I-580 at 2nd Street/Glendale Avenue and Mill Street.
- 5 Build noise, visual, and neighborhood walls.
- 6 Repair pavement on I-580 northbound.
